REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicant's arguments in the appeal brief filed on 09/11/2008 are not persuasive because it is clearly set forth in MPEP 2106, IV, C that even if the claim fall within one of the four enumerated categories of patentable subject matter recited in 35 U.S.C 101, it is still required that the claimed invention must transform an article or physical object to a different state or thing, or produce a useful, concrete and tangible result to be statutory subject matter. However, as further reviewing the claims, it is determined that the claimed invention is directed to statutory subject matter because the claimed invention is directed an apparatus having a specific structure for handling data stored in specific patterns for increasing the capacity of memory. Thus, the inventions is not directed to a judicial exceptions- laws of nature, natural phenomena and abstract idea, or a preemption. Further, the claimed invention produces a useful, concrete and tangible result that is more compactly stored in registers and thus increases the memory capacity.

It is agreed with applicant's argument that the combining of data by the node subsequent to ALU 10 in Fig. 2 of Getzlaff et al is not based on the pattern of data stored in the memory as recited in claims 21. The feature of the combining circuit replacing a part of the second output data from the register with a part of the first output data from the arithmetic logic unit based on the pattern of the data from the memory as recited in claims 21, and also the feature of the combining circuit shifting a position of data to be replaced in the second output data by a predetermined number of bits every time an operation process being executed as recited in claim 1 are not taught or fairly suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuong D. Ngo whose telephone number is (571) 272-3731. The examiner can normally be reached on Monday-Friday.
